PRODUCT GUIDE

The Tempur Sealy brands

Tempur Sealy is the world’s largest bedding provider. Combining a proud history and groundbreaking innovation, our portfolio of complementary brands offers something for everyone.

	The Consumer	The Brand	The Message
	Budget-minded consumers looking for comfort in a trusted brand, with a mattress that delivers a good night’s sleep.	Value, comfort and durability you trust	Comfort for years to come
	Busy consumers actively seeking a more supportive mattress, either for back pain or to replace an uncomfortable mattress. They see the bedroom as a space for both living and sleeping; they are looking for better sleep solutions from a brand they trust.	Unsurpassed back support	Nothing supports you like Posturepedic
	Premium consumers seeking exceptional quality and classic, elegant style; they want a mattress to deliver a comfortable, luxurious sleep experience.	Unparalleled craftsmanship	Indulgent comfort made for you by a master craftsman
	Younger-skewing (Millennial) consumers seeking better sleep through innovation; they want to make a smart investment in their mattress—seeking premium at a price point.	The best gel memory foam	The perfect balance of support and cooling comfort
	Slightly older wellness-seekers with more discretionary income, willing to invest in premium brands because they trust they deliver the best performance and benefits. Will spend more to enhance their wellbeing via better sleep.	The best sleep of your life	There’s only one Tempur-Pedic; nothing adapts, conforms and supports like TEMPUR®

Welcome

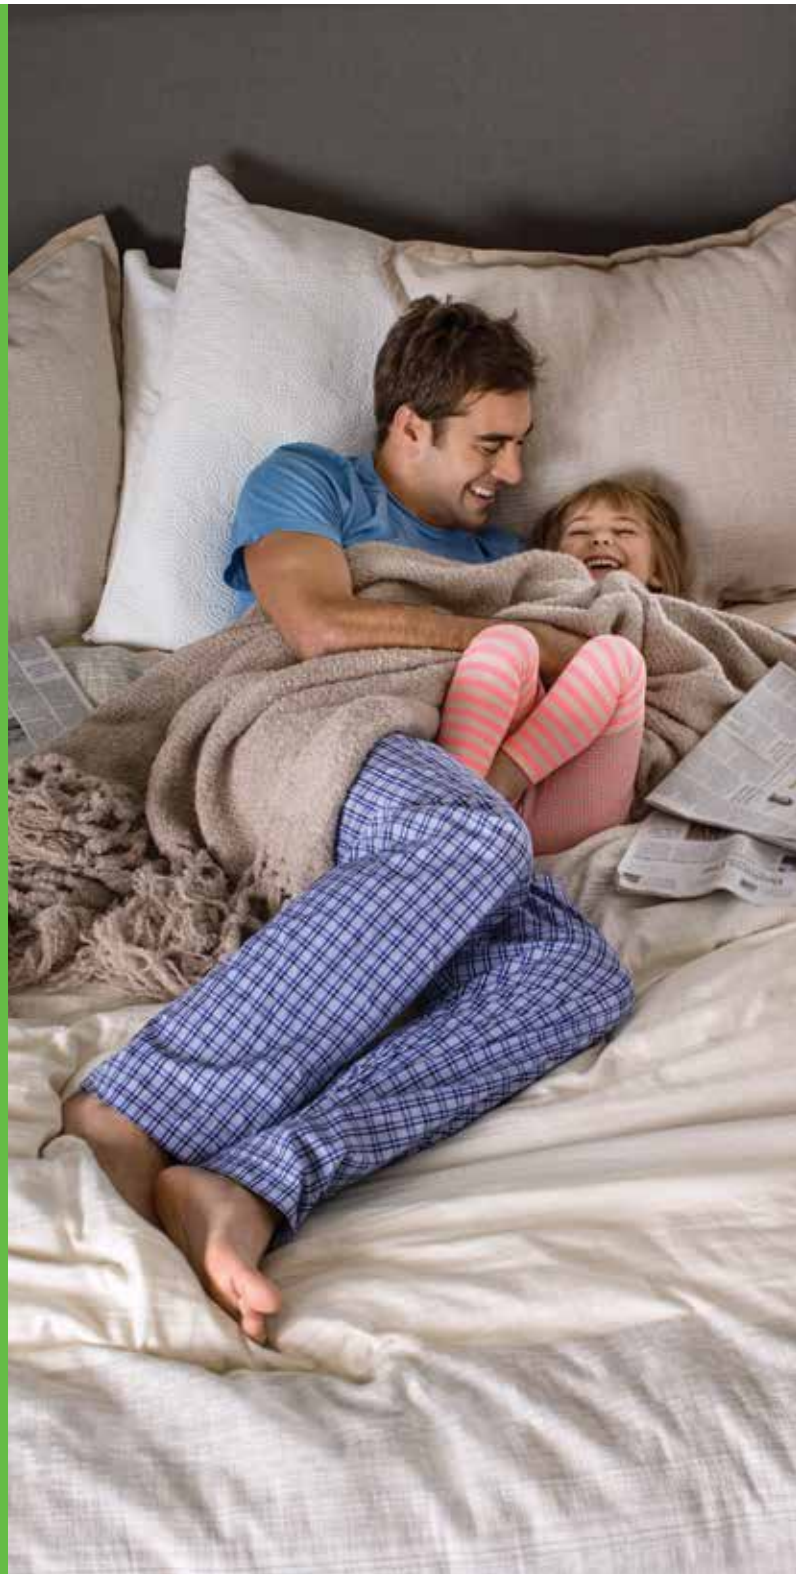

This 2015 Product Guide is the definitive handbook for the Tempur-Pedic® product line. It’s your single source of information for the Tempur-Pedic brand, mattress collections and features, and in-depth product details.

Highlights

- Key consumer messaging for the Tempur-Pedic mattress collections
- New mattress collection introduction—the TEMPUR-Flex® Collection
- Guide to new TEMPUR-Cloud® Pillow models

We’ve designed this guide to include the facts and figures you need in a format that’s easy to follow. Whether you’re new to the brand, or an expert on TEMPUR® material, we believe you’ll find information that will help you do your job more effectively.

- 4 Why Tempur-Pedic®
- 6 Mattress Collections and Navigation
- 8 Tempur-Pedic Innovation
- 11 TEMPUR-Flex® Collection
- 14 TEMPUR-Cloud® Collection
- 20 TEMPUR-Contour™ Collection
- 26 TEMPUR-Choice® Collection
- 28 TEMPUR-Ergo™ Adjustable Bases
- 32 TEMPUR-Up™ and TEMPUR-Flat™ Foundations
- 36 Adjustable Base Comparison
- 38 Foundation and Base Weights
- 40 Tempur-Pedic Pillows
- 42 Tempur-Pedic Linens
- 44 Tempur-Pedic Accessories
- 46 The Sales Experience
- 48 Frequently Asked Questions
- 50 Mattress Use and Care
- 52 Mattress Comparison
- 55 Product Warranties

We're Tempur-Pedic. We reinvented the mattress, and now there's more...more options & more innovation.

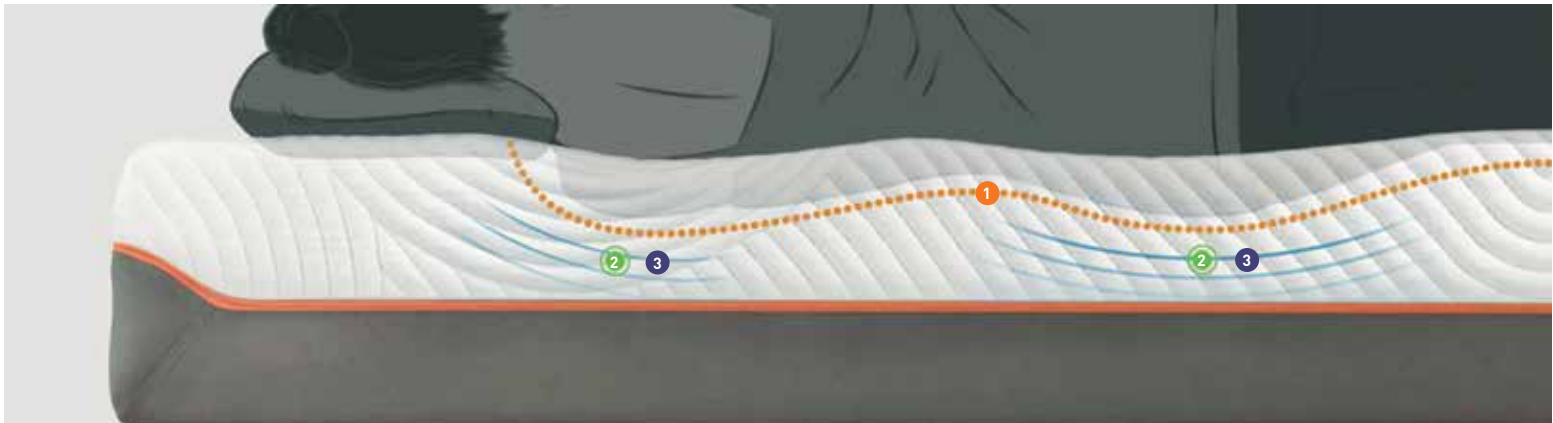

When we introduced the first Tempur-Pedic® mattress, our proprietary TEMPUR® material changed the way the world sleeps. TEMPUR material responds to your body temperature, adapting to your weight and unique shape, giving you personalized support and alignment, and delivering the ultimate in uninterrupted sleep.

Today, we keep innovating. We've introduced an entirely new TEMPUR feel. We've added new features. And there is still only one Tempur-Pedic. Even in a market crowded with memory foam mattresses, nothing adapts, conforms, and supports like TEMPUR material.

It's what makes Tempur-Pedic the most highly recommended bed in America™.

Why Tempur-Pedic®? You'll sleep better.

Nothing else feels like a Tempur-Pedic. Our proprietary TEMPUR® material changed the way the world sleeps. It adapts to your body, so you get personalized comfort and support. The unique feel of TEMPUR material delivers your best night's sleep. It's what makes Tempur-Pedic the most highly recommended bed in America™.

1 PRECISELY ADAPTS TO YOUR BODY

TEMPUR material responds to your temperature, weight and shape, for truly personalized comfort and support. Heavier areas, like your shoulders and hips, sink in further, while lighter areas sink in less. So whether you sleep on your back, side, or stomach (or change positions during the night) the mattress adapts to you. You get the exact support and comfort your body needs.

2 REDUCES TOSSING AND TURNING

Pressure points—those spots where the mattress presses against your body—trigger discomfort. Your body shifts position and you toss and turn. As it conforms to your body, TEMPUR material minimizes pressure points that keep you awake. You sleep undisturbed, for a more restful, restorative night.

3 HELPS YOU BOTH SLEEP UNDISTURBED

TEMPUR material dramatically reduces motion transfer, so your sleep partner's movement won't disturb you. When two people are sleeping on a Tempur-Pedic mattress, each is supported independently so if one gets up in the middle of the night, the other is likely unaware. You both sleep undisturbed, and get more hours of rejuvenating rest.

Our owners feel the TEMPUR® LOVE

We're the most highly recommended bed in America™

We're confident consumers will love their new Tempur-Pedic® mattress. But you don't have to take our word for it. Just listen to what some current Tempur-Pedic owners have to say:

I love it. It's cooling. It's soft. It holds my weight. — KRISTIN, *TEMPUR-Cloud Supreme Owner, Hollywood, CA*

Zip it off, throw it in the wash. So easy. So amazing. — EVI, *TEMPUR-Contour Supreme Owner, Los Angeles, CA*

Purchasing my bed was the right thing to do! Comfort at last that gets you through the night and waking up with a refreshed feeling to start a new day is the best! — JOY, *TEMPUR-Cloud Luxe Owner, Los Angeles, CA*

90%

Tempur-Pedic owners love their mattress.

90% of Tempur-Pedic mattress owners report overwhelming satisfaction with their mattress.⁽¹⁾

Mattress collections

We offer three core collections for the most popular consumer feel preferences, as well as options designed for more specialized sleep solutions.

THREE COLLECTIONS, THREE SPECIFIC FEELS

NEW

**TEMPUR-Flex®**
COLLECTION

ADAPTIVE AND RESPONSIVE

The famous adaptive support and pressure relief of TEMPUR® material, with a slightly springy feel.

**TEMPUR-Cloud®**
COLLECTION

SOFT AND SUPPORTIVE

Plush softness paired with the adaptive support and pressure relief of TEMPUR material.

SLEEP SOLUTIONS

**TEMPUR-Choice®**
COLLECTION

TEMPUR-Choice® mattresses have multiple adjustable comfort zones, with our body-conforming TEMPUR material on top. At the touch of a button, each of you can adjust the feel under your head, legs, and back.

**TEMPUR-Contour™**
COLLECTION

FIRM AND CONTOURING

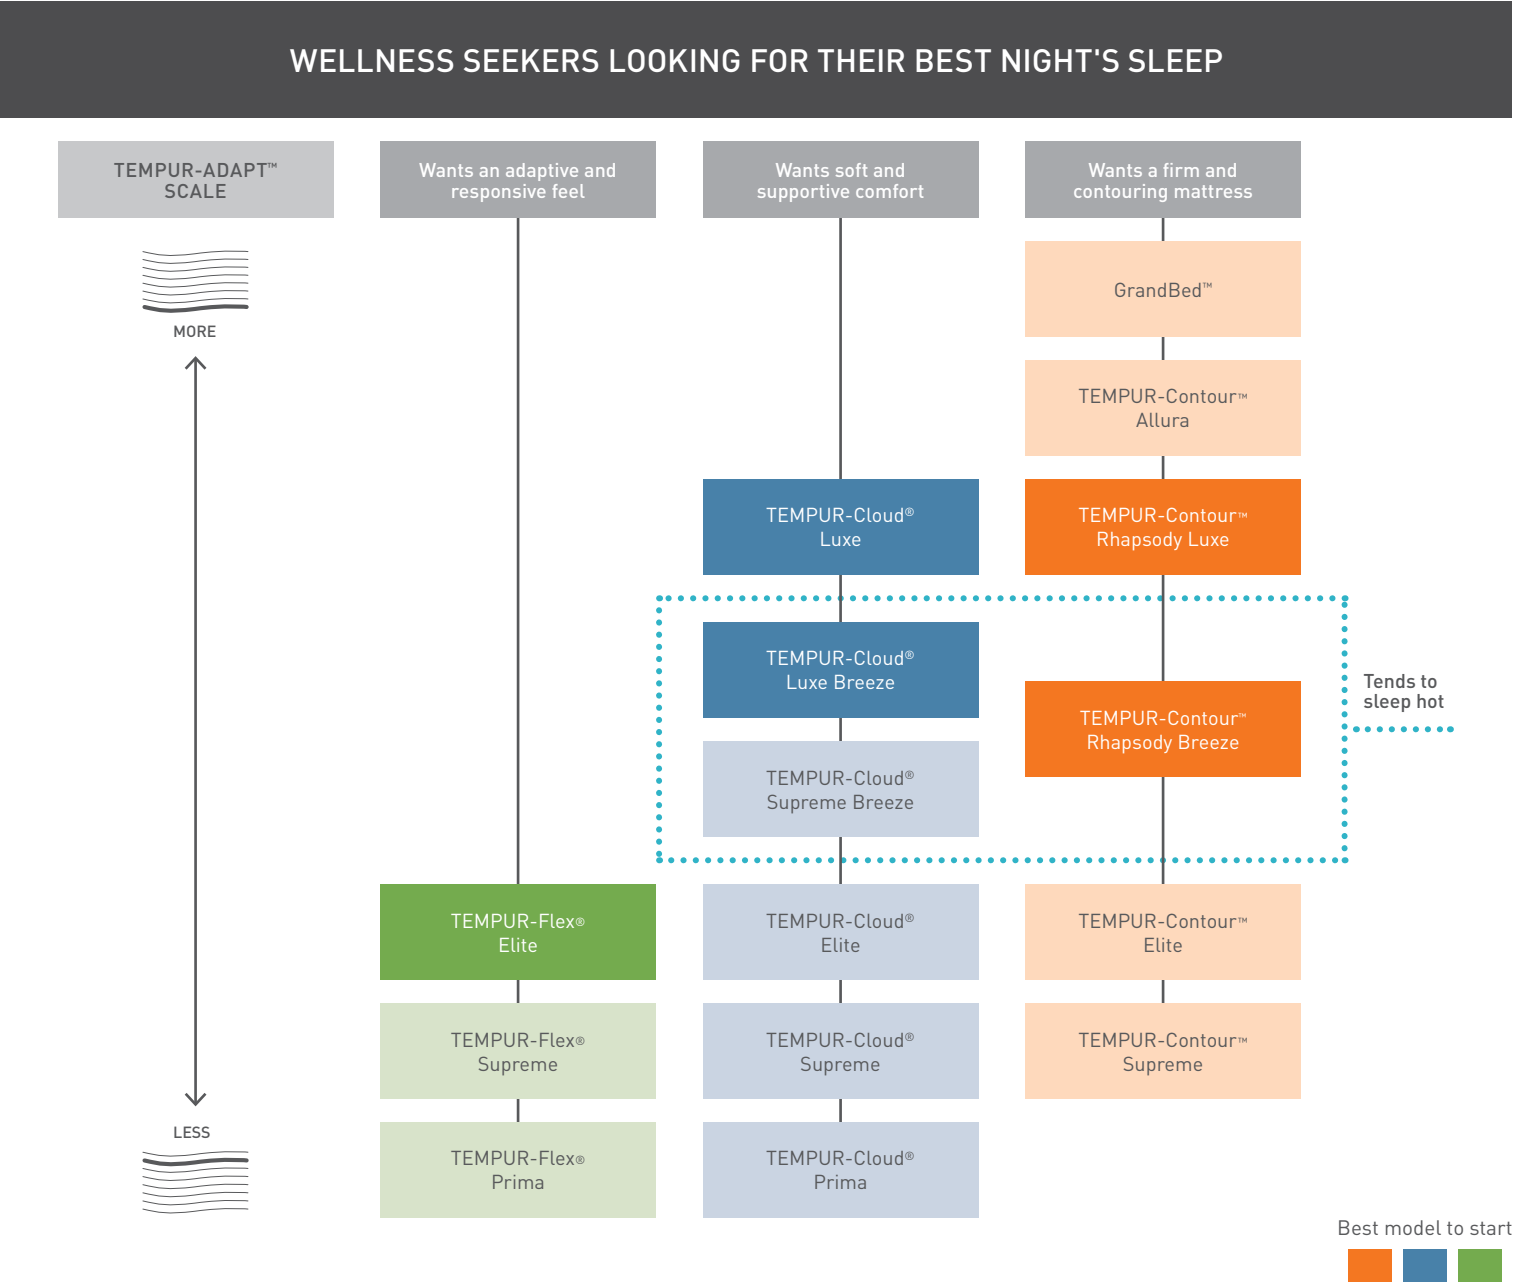

The ultimate in the adaptive support and pressure relief of TEMPUR material, with a firmer feel.

**TEMPUR-Breeze™**
COOLING TECHNOLOGY

TEMPUR-Breeze™ mattresses help keep you cool during the night with moisture-wicking fabric to keep you dry and TEMPUR-Breeze™ Cooling material in the top cover and comfort layer to dissipate heat during the night.

Navigating the Tempur-Pedic® collections

Tempur-Pedic owners love their mattress. Making sure they get a mattress that delivers their best night's sleep is easy when you first determine their wants and needs.

Innovation inside

When we introduced the first Tempur-Pedic® mattress, our proprietary TEMPUR® material changed the way the world sleeps. Today, after years of ongoing innovation, there are many features that make a Tempur-Pedic a Tempur-Pedic.

TEMPUR MATERIALS

Our proprietary breakthrough, TEMPUR material responds to your temperature, adapting to your weight and shape. This allows the comfort and support layers to precisely conform to the contours of your body, and provide truly personalized comfort and support.

In addition to standard TEMPUR material, we have developed versions for different feel preferences.

TEMPUR-RESPONSE™

The faster-responding version of TEMPUR material, designed to respond more quickly to your movement to deliver a more familiar, slightly springy feel.

TEMPUR-ES®

The softer formulation of TEMPUR material that delivers a balance of soft comfort with responsive support.

TEMPUR-HD®

The most highly-conforming formulation of TEMPUR material that delivers the most precise support.

TEMPUR-CLIMATE™

The formulation of TEMPUR material engineered at the cellular level to channel excess heat away from the body and out of the mattress.

Comfort Layer

The top layer of every Tempur-Pedic mattress, it determines the initial feel. Working with the Support Layer, it determines the level of TEMPUR-Adapt™, allowing for personalized comfort and support. The Comfort Layer is made from one of the formulations of TEMPUR material.

Support Layer

The layer under the Comfort Layer, it provides the support your body needs and helps distribute body weight evenly across the mattress. The Support Layer is made from one of the formulations of TEMPUR material.

Base Layer

Under the Comfort and Support Layers, it serves as the “base” for the TEMPUR material layers. In most cases, it is also designed to help disperse heat from the mattress.

MULTI-ZONE ADJUSTABLE SUPPORT SYSTEM

This special base layer contains multiple adjustable zones that control the adjustable feel for the TEMPUR material Comfort Layer. The center zone allows for extra support under the lower back. With left and right zones in each mattress, each sleeper can adjust their side independently (except Twin Long size, which does not have left and right zones).

Available in TEMPUR-Choice® Collection mattresses

FEATURES

TEMPUR-Breeze™ Cooling

COOLING COMFORT THAT REALLY WORKS

For people who naturally sleep hot, we added extra cooling technology to some of our most popular mattresses.

- Moisture-wicking fibers in the cover channel moisture away from the body
- State-of-the-art TEMPUR-Breeze cooling material in the cover and comfort layer feels cooler to the touch and draws heat away from the body
- The mattress core channels heat farther away from the body

TEMPUR-Breeze cooling material can help hot sleepers sleep cooler through the night, and wake up more refreshed and rejuvenated.

Available in three TEMPUR-Cloud® and TEMPUR-Contour™ Collection Breeze mattresses

Antimicrobial Treatment

Hinders microorganisms, including dust mites.

Available in all Tempur-Pedic mattresses

SmartClimate™ System
COOL-TO-THE-TOUCH COMFORT

The innovative SmartClimate System helps sleepers keep comfortable during the night, with two layers. The moisture-wicking fibers in the cover fabric draw moisture away to keep sleepers dry, while the SmartClimate treatment in the inner cover provides cool-to-the-touch comfort.

Available in 10 TEMPUR-Cloud®, TEMPUR-Contour™ and new 2015 TEMPUR-Flex® Collection mattresses

MATTRESS COVERS

EasyRefresh™ Top Cover
REPLACEABLE TOP COVERS MAKE BEAUTY AND COMFORT CONVENIENT

Our exclusive top cover zips off and on, so it's simple to wash or replace. The wear-tested dual zipper is easy to access from any side, so owners can "park" it in the position that they choose. The soft cover fabric is designed for durability, night after night, and wash after wash. Replacement covers available in mid-2015.

Available in eight TEMPUR-Cloud, TEMPUR-Contour and new 2015 TEMPUR-Flex Collection mattresses

Washable Cover

The entire mattress cover can be removed for cleaning or replacement.

Available in most mattresses that do not have an EasyRefresh Top Cover

Cover – spot clean only

The mattress cover is affixed to the mattress. However, it can be spot cleaned as needed.

Available in mattresses with TEMPUR-Breeze™ Cooling, plus TEMPUR-Contour™ Allura and GrandBed™ mattresses

TEMPUR-FLEX® COLLECTION

TEMPUR-Flex® Elite

The ultimate combination of faster-adapting comfort and pressure relief, our thickest comfort layer, and dynamic TEMPUR® material support

Key Features

SMARTCLIMATE™ SYSTEM
Moisture-wicking, cool-to-the-touch comfort

EASYREFRESH™ TOP COVER
Simple to remove, wash and replace

PREMIUM FABRIC COVER
High-loft super-stretch cover with grey upholstery sides

ANTIMICROBIAL TREATMENT
Hinders microorganisms, including dust mites

Pillows, Linens and Accessories

In addition to our famous mattresses and bases, Tempur-Pedic® offers a full line of top-of-bed and accessory products.

Pillows

We have a pillow for every sleep preference, including new TEMPUR-Cloud® pillows that offer huggable or highly adaptive support, plus a model with TEMPUR-Breeze™ Cooling on both sides.

Linens

Consumers can outfit their new bed with sheet sets designed specifically for Tempur-Pedic mattresses, plus mattress and pillow protectors to help guard against spills and stains.

Accessories

Whether at home or away, there's a Tempur-Pedic accessory for every need.

Selling the Tempur-Pedic® experience

Although every retail sales associate has an individual process that works, here are the steps that should be included during the sales process to successfully sell the Tempur-Pedic experience.

Reassuring consumers during the sale

When considering whether to buy a Tempur-Pedic® mattress, consumers may have questions. Here are the most common, along with responses that can reassure them.

- Q** Will I sleep hot on a Tempur-Pedic?

A You have nothing to worry about. There is no evidence that mattresses cause people to sleep hot, although some people do sleep hot naturally. And there is no evidence that people sleep hotter on Tempur-Pedic than on any other mattress.

In 2014, Tempur-Pedic introduced the SmartClimate™ system to new products, for cool-to-the-touch comfort.

If you naturally sleep hot, Tempur-Pedic offers mattresses with TEMPUR-Breeze™ Cooling. With cooling that really works, hot sleepers can be cool and comfortable during the night.
- Q** I can't afford a Tempur-Pedic mattress. What can I do?

A Tempur-Pedic mattresses are designed to deliver truly restorative sleep, using TEMPUR-Adapt™ technology. Consider them an investment in your best night's sleep. And since they're built to be durable for years to come, they're an investment that holds its value for a long time.
- Q** My sleep partner and I have different feel preferences. What can we do?

A If you like firm, but your sleep partner wants soft, consider the TEMPUR-Choice® Collection. Each of you can adjust your side of the mattress to your feel preference, while you both enjoy the benefits of sleeping on TEMPUR material. You can both get their best night's sleep, together.

Another option is pairing models from the TEMPUR-Cloud®, TEMPUR-Contour™, and TEMPUR-Flex collections. Models with the same name have matching heights, so you can combine two Twin Longs into a Split King mattress.
- Q** I prefer the feel of a traditional spring mattress. Which mattress should I choose?

A New for 2015, the TEMPUR-Flex® Collection pairs all the sleep-transforming benefits of TEMPUR® material with a new, dynamically responsive feel. Using hybrid construction, it combines all-new TEMPUR-Response™ material (designed to respond three times more quickly to your movement than other TEMPUR material formulations) with a new Dynamic Support Layer™, made of densely packed precision coils engineered to actively react to your body's movement. It's a whole new feel that only Tempur-Pedic can deliver.

Frequently Asked Questions

TEMPUR® MATERIAL

What is TEMPUR material?

TEMPUR material is composed of millions of movable cells, designed to cushion and support your body during sleep. It is sensitive to body temperature and weight, so it conforms to your body contours, distributing your body weight and allowing you to fully relax—so you can sleep and wake refreshed.

Is TEMPUR material the same as memory foam?

TEMPUR material is not the same as generic memory foam. Unlike generic foam, TEMPUR material springs back to its usual shape time after time—so it’s more like sleeping on a new mattress every night, and lasts for years. And since we research, design and manufacture TEMPUR material, it’s proprietary—you’ll only find it in our products.

MATTRESSES

What is the difference between TEMPUR-Breeze™ and SmartClimate™?

TEMPUR-Breeze mattresses are designed for people who naturally sleep hot or who like the feel of extra coolness as they sleep. With cooling that really works, hot sleepers can sleep cool and comfortable during the night. The SmartClimate System is designed to provide cool-to-the-touch comfort and is available in select mattresses.

Is there a weight limit for a Tempur-Pedic® mattress?

There is no weight limit for Tempur-Pedic mattresses. However, it is likely that an individual weighing over 300 lbs may experience some reduced performance in TEMPUR-Choice® beds, such as slower adjustment times when personalizing their side of the bed.

How are repairs and service issues handled?

There is a dedicated team within Tempur-Pedic Customer Service that handles and manages all service-related issues so that retailers do not have to manage this process. The service number is 1-800-821-6621.

How are warranty claims handled?

Potential consumer warranty claims should be handled by the Tempur-Pedic Customer Service Warranty Team. They should not be handled by the retailer. If warranty inquiries are received by the retailer, please re-direct them to Tempur-Pedic 1-800-821-6621.

Where are Tempur-Pedic mattresses produced?

TEMPUR material and mattresses are produced in the U.S., in state-of-the-art manufacturing centers in Duffield, Va. and Albuquerque, N.M. Both facilities are ISO9001, ISO14000 and ISO18000 certified.

How does the EasyRefresh™ Top Cover compare to other covers?

The EasyRefresh Top Cover is designed to be more beautiful and appealing to consumers—and also more durable, with longer-lasting fabric. Its fabrics are more resistant to pilling, which helps both consumers and on the showroom floor.

The cover on every Tempur-Pedic mattress must stretch to allow TEMPUR-Adapt™ to work—both the top cover and inner cover fabrics tested favorably, allowing as much stretch as our other fabrics.

On the sides, the grey upholstery is a premium textile that includes a built-in backer to make it more robust.

Are there replacement EasyRefresh Top Covers available?

Replacement covers are available for sale separately. Available mid-2015.

How often should I wash the EasyRefresh Top Cover? How long will it last?

We designed the EasyRefresh cover to be washed whenever it gets dirty. We tested it through dozens of wash cycles, and the fabric held up beautifully. And in the event that there is a spill that simply won’t wash out (similar to the way some spills won’t wash out of clothing), it can be replaced simply.

How do I put the EasyRefresh Top Cover back on most efficiently?

We designed a “location tag” on the side of the EasyRefresh Top Cover that matches a tag on the side of the bottom cover. So it’s simple to match the two tags and put the cover back on without fumbling around. In the showroom environment, it’s important to match the top cover to the right mattress (each model is a slightly different size). The tags also include the mattress model name to make that easy.

How durable is the zipper on the EasyRefresh Top Cover?

Significant design work went into the zipper, and in fact the single #8 zipper with two pulls is patent pending. We tested the zipper through thousands of cycles, and it tested well.

What is the blue cover layer underneath the EasyRefresh Top Cover?

The blue cover layer is the top portion of the inner cover—the blue fabric contains the SmartClimate™ treatment that delivers cool-to-the-touch comfort.

BASES & FOUNDATIONS

Is there a weight limit for adjustable bases?

TEMPUR-Ergo™ Premier/Grand and TEMPUR-Ergo™ Plus models have a rated lift capacity of 650 lbs. TEMPUR-Up™ Foundation has a rated lift capacity of 600 lbs.

Is it possible to raise the height of the TEMPUR-Ergo™ adjustable bases?

Yes, the height of the TEMPUR-Ergo Premier can be adjusted from approximately 9” to 20”, TEMPUR-Ergo Plus can be adjusted from approximately 8” to 17”, with leg and caster sets available from Tempur-Pedic. Please refer to the specifications on pages 29 and 31 for all available options.

Is it possible to raise the height of the TEMPUR-Up Foundation?

Yes, the height can be adjusted from 9” to 20”, with leg and caster sets available from Tempur-Pedic. Please refer to the specifications on page 33 for all available options.

Will Tempur-Pedic bases and foundations fit bed frames?

All Tempur-Pedic bases and foundations are designed to fit into most standard bed frames. We recommend measuring the inside dimensions of the assembled bed frame and comparing to the base and foundation measurements on pages 31, 33 and 35. A riser leg set may be required in some cases.

Can I place a TEMPUR-Ergo or TEMPUR-Up on bed frame slats?

Tempur-Pedic movable bases should not be placed on bed slats. The weight of the base can cause the slats to break. Slats should be removed or the base height should be adjusted such that the base stands above the slats and the slats bear no weight.

Are all Tempur-Pedic mattresses compatible with all Tempur-Pedic movable bases?

Most bases are compatible with most mattresses, but there are exceptions. See the chart on page 52 for details.

Who do I call for service or support if needed?

Service and technical support is available for all models by calling our dedicated Customer Service group at 1-800-821-6621.

What are the electrical requirements of Tempur-Pedic movable bases?

During normal operation, TEMPUR-Ergo Premier and TEMPUR-Ergo Plus can draw up to 2.5 Amps of electricity from a normal AC wall outlet, and TEMPUR-Up can draw up to 3.0 Amps. We highly recommend that consumers use a power surge protector (not included with the base).

What is the Wi-Fi module?

The Wi-Fi Module is a device included with TEMPUR-Ergo Premier and TEMPUR-Ergo Grand adjustable bases that allows you to control the system with a supported smart device.

Which smart devices are supported?

Smartphones and tablets running Android® operating system version 2.3 or higher, and with Wi-Fi capabilities (specifically 802.11 b/g at 2.4GHz). Apple® iPhone®, iPod® touch®, iPad®, and iPad® mini devices running iOS version 5.0 and higher. Kindle® Fire HD™ and HDX™.

iPhone®, iPod® and iPad® are registered trademarks of Apple, Inc., Cupertino, CA. Android® is a registered trademark of Google, Mountain View, CA. Kindle® is a registered trademark and Fire HD™ and HDX™ are trademarks of Amazon Technologies, Inc., Reno, NV

I’m not sure whether my smart device is compatible with the Wi-Fi module and app.

Contact the manufacturer of your device for confirmation.

What is the difference between home network mode and direct mode? Which one should I use?

Direct Mode makes a connection between your smart device and the adjustable base’s included Wi-Fi Module. This is the quickest way to make a connection, but it doesn’t allow you to access your home network, which may prevent you from using Internet-based functions on your smart device while controlling your bed. Home Network Mode integrates the Wi-Fi Module into your home wireless network. This means that your smart device can control your adjustable base, but it can also continue to access the Internet or other devices on your home network. Most owners with a home wireless network will want to use home network mode.

Which wireless routers are supported?

Wireless routers must have the following specifications:

- 802.11 b/g on 2.4GHz
- UDP Port 50007 and TCP Port 2000 must be open
- Must support one of the following encryption modes: none, WPA PSK, WPA2 PSK
- The character “^” must not be used in the SSID (network name) or in the network’s encryption password
- The router must have sufficient range to comfortably reach the Wi-Fi Module of the adjustable base as well as the smart device

Warranty Information

We believe in the quality of our products and we build them to last for years. Still, we realize that sometimes things go wrong. To protect against defects, we include a limited warranty with most of our products. To read the full warranty for each product: www.tempurpedic.com/customer-service/warranty-and-registration.asp
